Priory Primary School
At the heart of the community

Hello parents and carers

I have had a wonderful, warm and friendly welcome from the children, parents and staff at Priory Primary, and already feel very at home.

You have a very special school, here, with amazing staff and skilled governors. The children are enthusiastic, friendly and hard working, and I am so happy to be a part of your school community, working together to be the best that we can be.

I have already told the children a bit about myself, so you can ask them for details! I am delighted to be in a school that is local to my home, and I look forward to getting you know you all over the coming months.
