Priory Primary Virtual Celebration Assembly Newsletter

April 24th 2020

**Dear Parents and Pupils of Priory Primary School
Welcome to our first Virtual Celebration Assembly Newsletter!**

“What is this?” I hear you ask! Well, we thought it would be a great idea to keep putting names in ‘the book’ to be celebrated each week, because so many of you are working really hard at home.

Let’s Start – put on some quiet and calm music and sit down with your family to read this together.

**Mrs Fraser
Headteacher**

NURSERY

Safwan has been very busy doing activities at home including making cakes.

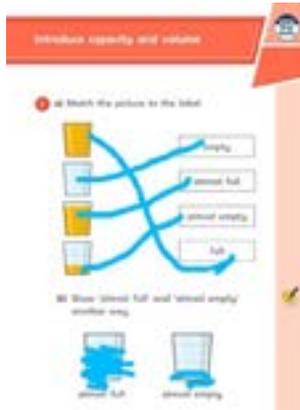

Mr Walsh loved this obstacle course made by Dennis and his dad – what a great idea!

RECEPTION

Hamza and Phillip are also in the book this week for this super maths work they have been doing.

YEAR 1

Jasmin has done some beautiful imaginative writing about being at the seaside – we especially liked this part of the description “Up above me there are clouds that are fluffy like wool.”

Look at this work on SeeSaw too. Well done Imani, for this great work about capacity in your maths.

Miss Beauchamp says: I have picked Razan this week because of her imagination with the collage she made. Razan has clearly thought carefully about her choice of colours to show the different facial features. She has concentrated on her cutting to make sure the shapes resemble the features of the face.

Great Work Razan!

YEAR 2

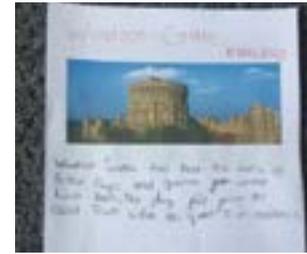

YEAR 3

We would like us to celebrate Hamza this week because of his fantastic effort towards his home learning. Hamza, you are also responding positively and promptly to Mr Ashley's feedback. He says “Great to see Hamza, keep it up!”

YEAR 4

Yusef has done some great research for his Castles topic, and recycled materials to construct a moving car!

Mr Mistry was also impressed with Ismail's telescope made from recycled materials.

YEAR 5

Umar is being celebrated for his fascinating diary from lockdown in London – this will be an interesting piece of social history in years to come. It charts key moments such as when Boris Johnson fell ill and later was admitted to hospital. Umar also spotted someone outside making sure they were social distancing by wearing a round plastic contraption that was 2 meters long!

YEAR 6

Mrs Wakeling would like to celebrate Alina, for her winning entry writing about a favourite place in Bedford. Alina chose the Butterfly Bridge – “the most stunning place I've ever been to...so much greenery...fascinating to watch as the water flows below you”. She also made a model of the bridge which was detailed and precisely constructed.

I would like to end this virtual celebration assembly with some reminders for everyone.

The Stay Home, Stay Safe instructions are still very important – the doctors and nurses are telling us that it really is working, so we must keep doing this. Please remember also to find ways to keep fit – maybe go for a walk together as a family around the streets near your home – you will notice that the trees are in blossom and the birds like the peace and quiet!

I hope you have remembered what we said at our last Assembly in the Hall: living by your values are especially important while you are at home. We talked about honesty, about respecting and following your grown-ups' instructions, we talked about perseverance with your work and we talked about showing love and kindness.

I hope you are keeping to your routines at home – but remember – your routine will be different to other people's and this is fine. Every family chooses to do things in a different way. Finally we send special good wishes to our families entering Ramadan. It is sad that we cannot join our friends and wider families at these important times but remain grateful for the strength and support of our 'virtual' community. Until next week – we send love to our Priory Primary Family!

Thank you to Darcy in year 1 for the lovely rainbow picture.
