# Priory Primary Virtual Celebration Assembly Newsletter

**22 May 2020**

Dear Parents,

This is our last week before the half term break, so a big well done and thank you to all our families for keeping in touch and working at home over the past weeks – you are doing a wonderful job, and we are so pleased to see that many of you have been getting out, being active and looking after your health. I am sure you will also allow me to say a big ‘Thank You’ on your behalf to all the teachers and TAs who have been working so hard to help with your learning, delivering parcels and calling home to check all is well.

I would like to introduce you to our newest member of staff, Mrs Maryam Bull, who is joining us at Priory Primary School today! She is starting by learning about all the things that Mrs King did to support you, so you may hear her voice if you call the school office. When we can return to school, she will come out to meet you and get to know you all.

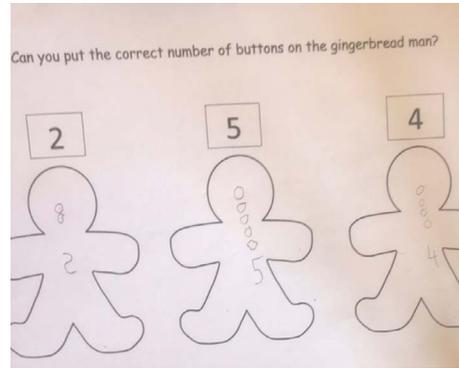

Finally, please could I ask all parents to complete a survey for us?  
Click on this link:

<https://eu.surveymonkey.com/r/NWGG5KC>

Now, time to celebrate our learners....

**Mrs Fraser  
Headteacher**

## NURSERY

We would like to celebrate Daniyal for his brilliant maths work, and joining him, Adeevah, Simran and Zimal, because they have all been active outside, having fun running as fast as they can, like The Gingerbread Man! Mrs Morgan has a big thank to parents and siblings that have been supporting the nursery children in doing their activities this week – it looks like you enjoyed getting involved.

## YEAR 1

### Here I am

- Draw pictures in the boxes. Write sentences to go with them. Remember to use capital letters.

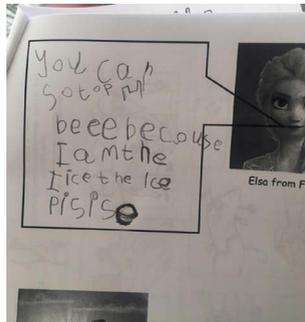

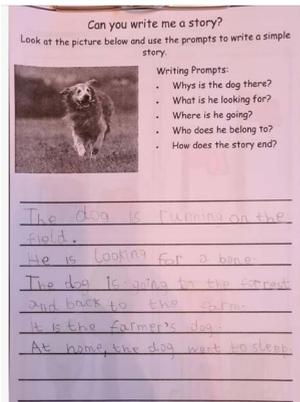

Here I am.

My name is

Eiliyah

Mrs Webber is a very happy teacher – she has four children who have been doing ALL the learning on SeeSaw, to the very best of their ability. She says “I could not ask for better home learners!” Well done to Jasmine, Oscar, Andi and Marcus.

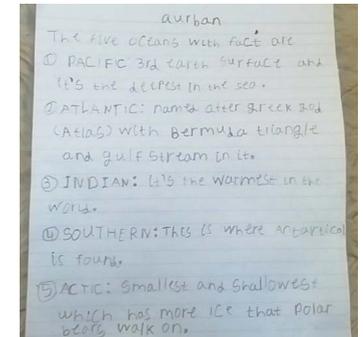

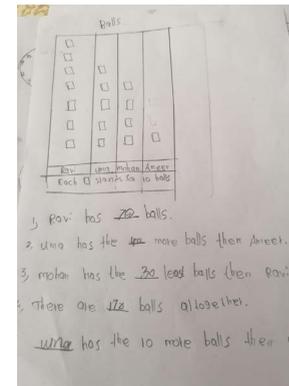

## RECEPTION

Congratulations to Asiyah and Dennis, who have been working hard on their home packs, including creating and writing stories. Kavi has been working on his counting and recognising numbers to 20. Wow! Reception class, you are superstars!

## YEAR 2

Videsh decided to do some EXTRA maths work this week by looking at time and pictograms, so Miss Beauchamp would like to celebrate him.

Videsh could explain what the pictogram was telling him. Qurban has done very well this week, listening to the oceans songs and writing facts about each ocean. Miss Beauchamp was also pleased to see Cian, Robin, Ayesha and Fatimah have been out for a daily walk. We are very pleased you understand the importance of keeping fit and healthy

## YEAR 3

Mr Ashley is congratulating Haleema and Avisha this week.

Both pupils have been courageous in their attitude to work – Haleema for having a go and trying her best with her tasks, and Avisha for taking responsibility for her own learning, and reaching out to find out what else she can be doing to support her learning.

What a mature attitude from you both – well done!

## YEAR 4

Y4 capacity word problems

■ How much water is in the red jug? Give your answer in millilitres.

■ How much water is in the blue jug? Give your answer in millilitres.

■ How much water would need to be added to the red jug so that there was one litre in the jug?

■ How much water would need to be added to the blue jug so that there was one litre in the jug?

We have a treat from year 4 this week – a cheery ‘thumbs up’ from some of our regular pupils on their GoogleMeet!

Congratulations to Ismail, Injila, Yusef and Ava who all managed to work out this

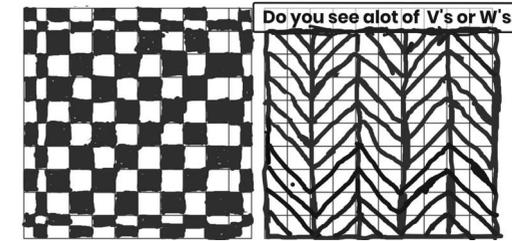

Numeracy morning challenge, and thank you to Sofia whose poster you will see at the end of this newsletter.

## YEAR 5

1 Step by step by step  
Down the steep mountain,  
Down it slowly goes.

2 Go back up slowly  
Climb up the sharp, thin rocks,  
Then find the wide cliff.

3 Over the grassy hill  
Around the blue, deep, dark lake,  
Until you find home.

Mrs Egdell would like to celebrate all the Year 5s who are having a go at the online activities, with a special mention to Sultan for doing ALL the work set! Ismail has created a fantastic response to the Haiku task and we hope you enjoy Oni's Optical Art.

## YEAR 6

Cricket

A cricket game was once stopped because a pig ran across the field. It is now even considered legal to suspend the game if an animal entered the field because of this. A cricket game has two umpires in the field and one off the field.

We have another superb sports Powerpoint to share, this week from Farhan. He has been nominated for consistently working and reworking assignments.

Mrs Wakeling is particularly happy to see that he is finding ways to put humour into his work while still achieving a good academic level. We have chosen the ‘cricket’ slide as the funniest!

In the next phase of lifting lockdown, it will be possible for children to begin to return to school. At Priory Primary we have chosen to do this very gradually and carefully. Please see my letter that explains how and when we will come back. Whether we will see you in school, or online or at the doorstep, we will be very excited to see you again after the half term holiday. In the meantime, here is Sofia's poster with a thoughtful and important reminder to us all.

Wishing peace and joy to all of you celebrating Eid al-Fitr this weekend – Eid Mubarak.
